STAT

Dear

What a great treat to hear from you after these many, many years. Yes, we did receive your thoughtful telegram last February. You did sign your name but only your first name. In fact, I believe it came out In any event, although I have joined the business of sleuthing, neither my wife nor I were able to decipher to whom I owed thanks. We are so pleased to know that it was you and to hear from you.

Over these many years I have thought of you often with gratitude. I have had quite a few opportunities to use the French which you originally taught me, and all of your emphasis on good pronunciation has paid off handsomely. My vocabulary and grammar have never been the best, but I've always received high compliments on my pronunciation, which I have attributed to the rigor of your emphasis on that in our class. Thank you.

You may or may not remember my wife, who was Patricia Busby, in Sunday School from time to time in Highland Park, although she lived in Rogers Park.

I'm so pleased you are in the Journal, and know that work must bring you lots of enjoyment and satisfaction. Patricia and I just returned from our Association in San Francisco, where we were addressed by another North Shore person,

STAT

My thanks again for your thoughtfulness and support. I am thoroughly enjoying this challenging assignment and hope that over time I can make a useful contribution. It was wonderful to hear from you. All the very best.

Yours,

STANSFIELD TURNER
